C110100

EN Foldable bed

Epoxy coated steel frame, steel wire mesh mattress platform.
Adjustable backrest 45° by means of a rack device.
Dimensions: 65 x 190 x 50cm Capacity: 150Kg

FR Lit médical pliant

Structure en acier laqué époxy.
Sommier en treillis métallique.
Relève-buste réglable par crémaillère à 45°
Dimensions: 65 x 190 x 50cm Capacité: 150Kg

IT Letto pieghevole

Struttura in acciaio verniciato.
Piano rete in maglia rigida
Schienale regolabile a 45° tramite cremagliera.
Dimensioni: 65 x 190 x 50cm Capacità: 150 kg

C110103

EN Dismountable hospital bed

Frame made of epoxy coated steel tube
Bed ends with horizontal bars
Platform with epoxy-painted steel weldmesh
Dimensions: 85 x 195 x 52 cm. Capacity: 150Kg

FR Lit d'hôpital démontable

Cadre en tube d'acier revêtement époxy
Tête et pied de lit à barreaux horizontaux
Sommier en treillis métallique, revêtement époxy
Dimensions: 85 x 195 x 52 cm. Capacité: 150Kg

IT Letto ospedaliero smontabile

Telaio in tubo d'acciaio verniciato
Testate con barre orizzontali verniciate
Piano rete in maglia rigida
Dimensioni: 85 x 195 x 52 cm. Capacità: 150 kg

C110104

Delivery bed

Table d'accouchement

Letto parto

Our delivery beds were designed and developed together with a team of doctors, working for various healthcare organizations in various parts of the world. The result is a product that combines robustness, flexibility of use and high safety standards for patient and operator. Built with a steel structure of important section and diameter on a wide base, they have a great stability during the operations. The patient frame is separate and with safety locks to prevent accidental damage to operators. The various sections are widely adjustable and the leg section can be pulled out. It can also slide under seat section. They can be equipped with various devices such as sides rails, handles and accessory bar.

Nos lits d'accouchement ont été conçus et développés en collaboration avec une équipe de médecins, travaillant pour diverses organisations de santé dans différentes parties du monde. Le résultat est un produit qui allie robustesse, souplesse d'utilisation et normes de sécurité élevées pour le patient et l'opérateur. Construits avec une structure en acier de section et de diamètre importants sur une base large, ils ont une grande stabilité pendant les opérations. Le cadre du patient est séparé et doté de verrous de sécurité pour éviter tout dommage accidentel aux opérateurs. Les différentes sections sont largement réglables et la partie jambes escamotable et coulissant sous la section du siège. Ils peuvent être équipés de divers accessoires tels que des barrières, des poignées et une barre d'accessoires.

I nostri letti parto sono stati progettati e sviluppati insieme a un team di medici, che lavorano per varie organizzazioni sanitarie in diverse parti del mondo. Il risultato è un prodotto che unisce robustezza, flessibilità di utilizzo ed elevati standard di sicurezza per paziente e operatore. Costruiti con una struttura in acciaio di sezione e diametro importanti su un'ampia base, hanno una grande stabilità durante le operazioni. Il telaio del paziente è separato e dotato di chiusure di sicurezza per evitare danni accidentali agli operatori. Le varie sezioni sono ampiamente regolabili e la sezione poggia gambe è scorrevole sotto il sedile. Possono essere dotati di vari accessori come spondine laterali, maniglie e barre porta accessori.

**FM300****EN** Manual hydraulic surgical table

Main controls are located on the head section and consist of two big levers that drive all table movements (TR/ RTR, chest elevation, lateral tilting). Meets all the requirements for chest, abdominal, gynaecological and obstetric, ophthalmological and otorhinolaryngological, urological, colon, rectal, and orthopaedic surgery. Base, lifting column, accessories rail and accessories are made of stainless steel, easy to clean and rustproof. Lifting column is adjustable by means of a hydraulic system. Lifting column has a central position and is studied to avoid tilting. Dimensions: 52 x 200 x 78/102cm. Capacity: 200Kg

FR Table d'opération manuelle hydraulique

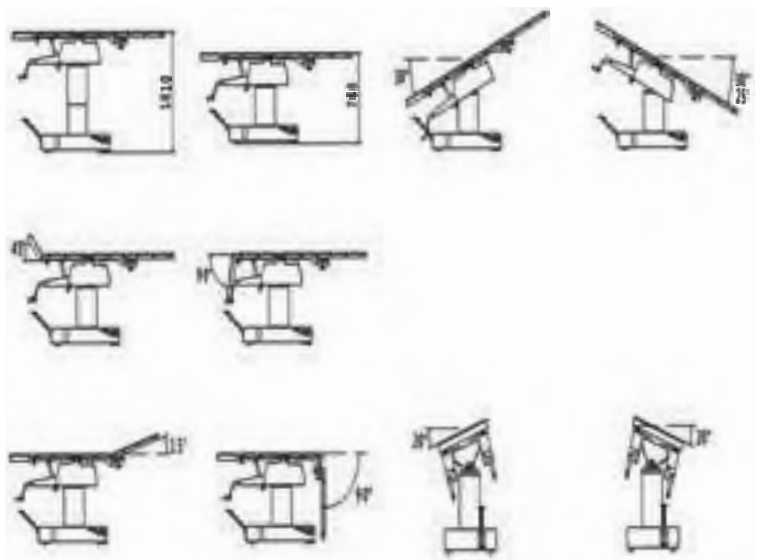

Répond à toutes les exigences liées à la chirurgie thoracique, abdominale, gynécologique/obstétrique, ophtalmologique/ORL, rectale et orthopédique. Fabriquée en matériaux de haute qualité et selon des technologies de précision. Ergonomique, les commandes principales, placées au niveau de la tête, contrôlent tous les mouvements de la table (Trendelenburg, Trendelenburg inversé, élévation du buste, inclinaison latérale). Base et accessoires sont en acier inox, faciles à nettoyer et anti-rouille. Sûre, les mouvements de la colonne centrale anti-bascule sont réglables par système hydraulique. Dimensions: 52 x 200 x 78/102cm. Capacité: 200Kg

IT Tavolo operatorio idraulico

Soddisfa tutti i requisiti relativi alla chirurgia toracica, addominale, ginecologica / ostetrica, oftalmologica / ORL, rettale e ortopedica. Realizzato con materiali di alta qualità e secondo tecnologie di precisione. Ergonomico, i comandi principali, posizionati a livello del poggiatesta, controllano tutti i movimenti del tavolo (TR, RTR, altezza variabile, inclinazione laterale). Base e accessori sono realizzati in acciaio inossidabile, facili da pulire e antiruggine. Sicuro, i movimenti della colonna centrale anti-ribaltamento sono regolabili dal sistema idraulico. Dimensioni: 52 x 200 x 78/102cm. Capacità: 200Kg
